

For several years I have suffered hip, back, & shoulder pain. Out of ten I rated my pain at times as 8-9. I have been to doctors, chiropractors, masseurs, had x-rays, scans you name it! Spent thousands of dollars.

My pain was stopping me from doing my job, properly.

I saw Peter's ad in the paper, and thought it sounded too good to be true! But after spending so much money on other treatments I thought why not?

Well, one day after treatment, I felt better, two days after, great, one week later I was running at about 94%. I am back to being me. I sit in the chair after 10 hrs working, & I have no pain. None.

For a living I ride horses, & the work we do is very physical, so I am pleased I am feeling better. All thanks to Peter. All I can say to everyone is to try Peter. You will not be disappointed.

If you have any problems, any pain don't hesitate

I don't have any hesitation in recommending Peter to anyone.
